

Checklist - Car Inventory List

On this list, jot down the brand name, make, model, serial numbers and the price of each item. Write a description and any other details you think might be helpful if you had to describe the object to an insurance agent or police officer.

A car inventory list can also help during the recovery and insurance claim processes after a theft, natural disaster or fire. Also, remember to take photos or videotape your expensive items such as your cell phone or PDA. Keep a copy of this list at home in a safe place.
